

ARMOUR COMBI LOCKERS

Armour Combi Lockers are available with up to 6 doors and are fitted with a combination lock on each door. They are Fire Guard tested and certified to EN13501-1. The Lockers are powder coated with Germ Guard Active Technology, this prevents the spread of bacteria in busy areas. There are 4 sizes available, meaning they can be customised to fit any space.

GENERAL INFO & FEATURES

- Ventilated doors for air flow
- Internal security shelves are galvanised making them corrosion-resistant
- Manufactured using 7mm gauge steel with rubber buffers for robustness and durability
- Single tier compartments are fitted with a coat hook and top shelf
- Two tier compartments are fitted with a coat hook in each compartment

Combination lock

Coat hook and top shelf (single door locker)
