

# SPLASH WET AREA LAMINATE LOCKERS

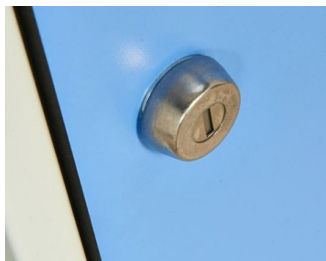

Our high quality Laminate Lockers for wet areas are ideal for changing rooms and swimming pools. The galvanised steel carcass and moisture resistant cam locks mean the Lockers will not rust. These Lockers come pre drilled ready for nesting and are manufactured with security shelves to prevent access to the compartments above and below. The doors open 180 degrees for easy access. End panels are also available to add a finishing touch.
