WHEELIE BINS COLOURS AVAILABLE

Our best-selling TUFF Wheelie Bins are available in 5 colours for all requirements. Typically different wheelie bin colours can represent different uses, which will be outlined

BLACK WHEELIE BINS

Suggested use:

Our Black Wheelie Bins are perfect for household use, typically as replacement council bins within the UK, or additional garden waste storage.

Waste can include non-recyclable items such as food waste.

RED WHEELIE BINS

Suggested use:

Red Wheelie Bins are used for general waste separation for recycling purposes, with red bins storing plastics such as bottles, packaging etc.

In some cases businesses may have a red bin for their waste collection.

GREEN WHEELIE BINS

Suggested use:

The Green Wheelie Bins are commonly used by council collections for garden waste. For gardening projects, an additional wheelie bin may be needed for extra grass trimmings, branches and plants. The wheelie bins can be stored indoor or outdoor.

BLUE WHEELIE BINS

Suggested use:

Generally, Blue Wheelie Bins are used for waste segregation for recycling purposes, with blue representing paper waste. This can include printing, cardboard, paper foodwaste. It is ideal for use in offices, retail, surgeries etc as well as any admin areas.

YELLOW WHEELIE BINS

Suggested use:

Yellow Wheelie Bins commonly store clinical waste, which would be a great option in doctor surgeries, dentists and any medical practice for responsible disposal.

In households they can be used for general waste segregation.

Please check with your local council prior to purchase to check as colours and size requirements may vary. These uses are a general advisory but for general use, any wheelie bin colour is suitable for your own waste separation etc.
