

# HEAVY DUTY PROTECTION BARRIER

Heavy duty protection barriers are great corner protection that are primed with a yellow plastic coating and black stripes for internal use. These barriers protect vulnerable corners such as equipment and steel columns. The design helps to offer maximum strength as well as durability when using in the workplace. These are ideal to protection ramps, equipment, columns, shelving, traffic routes, stock and machinery.

## GENERAL INFO & FEATURES

Code	Size
19513241	H350 x W600 x D600mm
19514637	H600 x W600 x D600mm
19517512	H1200 x W600 x D600mm

- Quick and easy installation
