SPECIFICATION

Additional Info

- Linoleum Worktops: The work surface is a MFC surface complete with a layer of durable Linoleum. It is ideal for labs, homes, hospitals and health care facilities. This is due to the anti-bacterial and non-allergenic properties.
- Laminate Worktops: The thick 20mm worktop is ideal for day to day use, and is highly resistant to grease. It is easy to maintain and clean after use.
- Beech Worktops: 40mm thick suitable for heavy duty requirements. Must be well maintained with sanding down etc. The worktop has good resistant to grease and oil, ideal for general purpose use.
- Load Capacity: 1200kg
- Drawer load capacity: 100kg

27mm thick Beech Worktop
